CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA 10c per copy Thursday, December 30, 1954

Campbell Is Suing For Fire District Money Due

Joseph A. Bonacina, city attorney for Campbell, yesterday filed a petition for writ of mandate in the Superior Court at San Jose, seeking apportionment of the Central Fire District assets allegedly due Campbell following incorporation of Campbell on March 28, 1952.

The petition further alleges that from March 28 to and including June 30, 1952 the district continued to collect taxes on real property which had been withdrawn from the district in an amount known to defendants and that while demand has been made already to turn this money back to the city the district and county "have failed and refused to do so."

The City of Campbell is the petitioner for the writ, while the respondents include: the County of Santa Clara, the Board of Supervisors—Arthur Brown, Joseph M. McKinnon, Walter S. Gaspar, Sam P. Della Maggiore and Ed R. Levin, The State of California, the Central Fire Protection District of the County of Santa Clara, the Board of Fire Commissioners of the Central Fire Protection District—Curtis Zanker, H. O. Fiebig, J. A. Mirassou, Roger Nash and E. M. McCullam, the Board of Fire Commissioners of said district and John M. Francisco, the County Controller.

Sections of the California Health and Safety code are cited in the petition in a contention that funds remaining on hand in the district and on deposit with the County of Santa Clara on the date of withdrawal were to be divided between the city of Campbell and the remaining district in proportion to the assessed valuation of real property of territory withdrawn and the portion so withdrawn and the portion remaining. Also that taxes collected by the district after the date of withdrawal on real property so withdrawn were to be paid over to the city.

The duty and legal obligation for apportioning property, funds and taxes of the district with the

city is vested in the Board of Supervisors, the Fire Commissioners of the district and the County Controller, the petition alleges.

Because the Board of Supervisors, the Fire Commissioners and County Controller have "failed and refused to make said division and apportionment and they continue to fail and refuse to make same" this action the petition contends is "arbitrary, capricious, and an abuse of the discretion by the said Supervisors, Commissioners and said County Controller, this being a breach of duty on their part . . . without due regard to the rights of the petitioner, and causing great and irreparable harm and damage to the petitioner."

The writ would seek to compel by court decree that respondents divide and apportion the property, funds and taxes of the said district with the City of Campbell, or show cause why the Board of Supervisors, the Fire Commissioners and the County Controller should not do so.

The petition is signed by Joseph A. Bonacina as city attorney and verified on behalf of the municipality by Dorothy Trevethan, city clerk.

Earlier in the year when this action was first contemplated it was pointed out that the city was seeking to collect approximately \$5,951.52, which it was said is the agreed percentage of \$63,371.35 cash on hand of the Central Fire District on March 28, 1952, taxes collected from March 28, 1952 to June 30, 1953.

Bonacina Named Committeeman On Municipal Laws

Joseph A. Bonacina, City Attorney for Campbell, has been named to the committee on Ordinances and Ordinance Enforcement

JOSEPH A. BONACINA.

of the National Institute of Municipal Law Officers, with headquarters in Washington, D. C. according to word just received from Washington.

GRANGE HERE TAKES STAND ON BUTANO FOREST

Orchard City Grange of Campbell in their December 28 meeting voted to send a letter to the Department of Natural Resources, Division of Beaches and Parks, asking the Park Commission to do their utmost to preserve the 1,040 acres of virgin redwood forest for a Butano State Park, assuring them that almost all Granges in the State are resolved to stand behind this project to preserve this beautiful natural park of great trees.

Herbert Shadle, master of the Grange, reported he had received a reply to his letter of inquiry concerning the Butano Forest from Herbert C. Jones of San Jose, stating that the Park Commission has been reluctant to start condemnation proceedings because the appraisers for the Pacific Lumber Company have fixed the value of the timber so much in excess of the figure quoted by the State appraisers that the Park Commission doubts whether it has enough money to acquire the desired area and is afraid that it may be "stuck" for the court cost of the condemnation proceedings. Jones also stated that a further meeting of the Park authorities is to be held on January 17th.

During the meeting, John Gordon, district deputy, announced that the installation of Grange officers for this area will take place at the Sunnyvale City Hall on January 8th. Robert Wurfel Sr. was elected for the third time to serve another three years on the executive board. Bessie Merrill, H. E. C. chairman announced the next meeting will be held at the home of Mrs. Nellie Skillman at 506 Flagg Street in San Jose on January 14th.

Martin S. Walsh, overseer of the Grange, furnished entertainment by showing pictures taken on his vacation trip in this and other countries.

Following the meeting, refreshments were served by co-chairman Mrs. Bessie Merrill, and Mrs. Jenny Lytle, assisted by George Lytle, Owen Jones, Mrs. Cora Kaufman, Mrs. Elizabeth Pesh and Mrs. Jeanette Peterson.

19 NEW HOMES IN CAMPBELL AREA

Permits were issued Monday for Cambrian Park Estates for 19 homes on Camden avenue and Taper avenue, immediately south of Campbell to cost a total of \$151,000.

Red buoys mark the right hand sides of channels of waterways, entering from seaward.

S.P. Decides Not To Close Local Station

The proposed closing of the Southern Pacific depot in Campbell has been postponed indefinitely by orders from the California Public Utilities Commission according to a directive received at the station here from R. R. Robinson, assistant Superintendent for the Southern Pacific Company at San Francisco.

The message instructs that all orders regarding the closing are to be disregarded.

The action followed receipt of protests from various organizations and business firms, including the City Council, Chamber of Commerce and Hunt Foods.

Rotary Welcomes New Members

Ladies of the Methodist Church were presented with gifts and a letter complimenting them on the fine luncheon they have cooked for the Rotary Club when members met for their regular Monday meeting in I. O. O. F. hall. "Doc Arends made the presentation and conducted the meeting in the absence of the president, Les Harmon.

Three new members were introduced to the club with a brief biography of their lives. Paul Lozar, originally from Seattle, Washington, attended the University of San Francisco and graduated from San Jose State in 1953, with a degree in Education. He has been teacher at the Cambrian School since 1948 and is now head of the Audio-visual department. John A. Hughes, D. D., is a graduate of Wyoming University and served two hitchhikes in the service. One in the Army and the other in the Air Force as a dentist. He now has offices at 451 E. Campbell Avenue. Sam P. Cava was born in Pianeratti, Italy, and came to the United States at the age of eight. He was a teacher of music in Chicago, and while in the Army, was director of the Military Band. Upon coming to San Jose he conducted a successful canning business for thirty-six years before retiring. Finding retirement too prosaic for his busy mind, he bought the J & A Market in Campbell last year. He is President of the Campbell Chamber of Commerce where it is said he has accomplished more for the City in his term of office than some people do in a lifetime. He is a member of the American Legion and conductor of their famous prize winning Symphony Band. He is married and the father of four children, all grown.

The Sheriff's office today is looking for thieves who stole \$2,260 worth of hand and power tools early Christmas morning from the Darrigo and Powers Construction Company at Camden and Union Avenues. The tools were stolen from a tool shed on the site of the new Camden High School. The burglars carried away everything from a scotch tape stand to a \$700 transistor. The case is still under investigation by the Sheriff's men.

Reduction Asked In Sewer Rates

Dick Yee who is planning to build a supermarket on the east side of Pamilar avenue and the San Jose-Los Gatos road has asked for a variance on sewer connection fee proposed by the directors of Sanitation District No. 4.

Yee requests the board to lower the fees, which will total about \$1100, because he is forced to spend \$1200 to \$1500 to bore a sewer line under the San Jose-Los Gatos road. State Highway regulation prevent Yee from digging an open excavation across the road, which would cost but \$200.

Main district sewer lines are located on the west side of the road, necessitating Yee to pay for installation of a line across the highway.

LIONS HEAR PIONEER AIRMEN

Robert Fowler, early day pioneer aviator, was one of the guest speakers for the Lion's Club which met Tuesday evening in the clubrooms of the Country Womens Club. Fowler was the first man to fly from the Pacific to the Atlantic ocean in 1911, and the first to fly ocean to ocean nonstop when he flew across the Isthmus of Panama, a distance of 60 miles, in 1911. He was also one of the early race car drivers.

The other guest speaker was Art J. Hartman, who showed films on balloon ascensions in 1907. Hartman, who is from Burlington, Iowa, was the first man ever to make a balloon ascension in 1903, and is the only man to fly all types of aircraft. He is also a member of the "Early Birds" an association of pioneer aviators.

The meeting was conducted by Verle Grizzle, president.

Bucknall-Rincon School Site Now Being Proposed

The County Planning Commission is to act next Wednesday on the application of the Union Elementary School district for a school site at Carleton Avenue and Elester Drive.

It is to act on application for a use permit from Moreland School on San Tomas Aquina Road between Bucknall and Rincon avenue. The matter of zoning change from R-1 to C-1-H of the Joseph LeScola property on the west side of the San Jose-Los Gatos road between Dry Creek and Apricot avenue will probably be acted on.

The commission will consider issuance of a permit for a hospital and related facilities on Lark avenue at San Jose-Los Gatos Road.

Construction Co. Is Burglarized

The Sheriff's office today is looking for thieves who stole \$2,260 worth of hand and power tools early Christmas morning from the Darrigo and Powers Construction Company at Camden and Union Avenues. The tools were stolen from a tool shed on the site of the new Camden High School. The burglars carried away everything from a scotch tape stand to a \$700 transistor. The case is still under investigation by the Sheriff's men.

The Sheriff's office is also investigating the theft of Christmas tree lights being taken from outdoor displays in the Cambrian area. Lights were reported taken from the homes of Roy Archibald, at 545 Briarwood Way, Henry Jewell at 541 Cambrian Drive and R. McClintock on Casey Road.

March Of Dimes To Raise Polio Funds

Issuing an advance appeal for volunteer workers, 1955 March of Dimes Chairman Edward O. Duino yesterday announced the opening of headquarters for the drive at 9 A. M. tomorrow in the Burrell Building, 246 South First Street, San Jose.

Recruits are needed to staff campaign headquarters, to assemble workers' kits, to mail Dime Cards, place coin containers and assist in other preparations for the fund-raising drive.

Many volunteer activities can be arranged for part-time participation, to fit in to school, home or office schedules, Duino reported.

"We need everyone's help in our non-stop fight with polio," he emphasized, "teenagers as well as adults. There's a volunteer activity to fit every age level in the 1955 March of Dimes."

Teenagers have a special stake in the success of the drive this January, because funds from the drive will help continue work on a polio vaccine in addition to caring for thousands of polio victims for whom a vaccine comes too late.

National Foundation figures reveal that four out of five polio cases occur among people under 20 years of age. Research authorities, now tabulating results of the Salk vaccine trials, are hopeful that they soon will have a effective weapon to reduce this drastic toll.

Commenting on the "splendid volunteer cooperation which in the 1954 Emergency Drive helped put the county over its quota," Duino said he looks forward to a "wholehearted response to our call for recruits."

The schooner "Le Griffon" was the first commercial vessel to sail the Great Lakes; its keel was laid on January 26, 1679.

Kirk Road and Foxworthy

\$166,000 Telephone Building For Cambrian

Construction will start in May on a \$166,000 telephone building on Foxworthy Avenue, between Kirk and Arroba Way in Santa Clara County. This building is part of a \$1,245,000 project to bring more telephones to the rapidly expanding San Jose-Campbell area.

The new one-story building will measure 82 by 98 feet and be constructed of reinforced concrete. It will house dial telephone machinery.

"We had to change some telephone numbers before we could establish this central office building, which will provide more phones," said T. T. Cook, District Manager.

Many FRanklin 8 numbers have been changed to new numbers which have the prefix ESsex 7. Some people who had FRanklin 8 numbers now have new numbers but still retain the FRanklin 8 prefix.

All new numbers went into effect December 28 and are listed in the January, 1955, telephone book.

Distribution of this book started Monday and will be completed today.

Cook said that stickers bearing the new telephone numbers have been mailed to the users involved. He asked that they be placed on the telephone as directed.

Title Moreland No. 2, the proposed expansion starts at the city's westernmost point, the strawberry farming area at the end of Moorpark avenue.

A 210-foot wide strip drops south along Saratoga avenue to Monte Linda subdivision. It ducks to the west to avoid the tract. South of the subdivision the annexation takes in a 95-acre plot belonging to Mitchell Mitchell. The strip then in continued south to the Quito road "Y", taking in the property of Lionel Tillson.

This is the second long, narrow feeler put out by the city. The other one cuts through the Cambrian Park area and ends at the intersection of San Jose-Los Gatos road and Camden avenue.

Repercussions to the proposed annexation were heard yesterday at Saratoga where incorporation talk was revived as a matter of self defense. In Campbell the action by San Jose seemed like throwing up a bulkhead to block any effort for Moreland annexing to Campbell.

At Saratoga, Rear Admiral Fred Crisp, chairman of the study committee for incorporation said:

"San Jose is certainly slipping into our back yard," he warned, pointing out that from the present strip, San Jose could jump across the Saratoga-Santa Clara road into more uninhabited territory and annex right into Saratoga.

"Look what they did to Campbell," he continued, referring to San Jose's strips which have almost surrounded that city.

"San Jose can do the same thing here in Saratoga unless someone does something about it," Admiral Crisp continued.

This latest strip bears out the warnings of the two incorporation studies, he said, that unless Saratoga incorporates, other cities will come out to annex the area.

Paul Basham, chairman of the Saratoga Survey committee which had the Corvo Foundation of San Francisco make an incorporation study, indicated much the same sentiments as Admiral Crisp.

Basham, proprietor of the Quito Center pharmacy, said "I'm very much opposed to San Jose coming so close to our hoped-for Saratoga city. I think more than ever now that interest should be stimulated in Saratoga incorporation before San Jose takes over all of Saratoga."

He also indicated that those in the Quito area who had discussed this annexation with him were likewise very much opposed to becoming part of San Jose.

Honor Guy Farley For 26 Years As Kiwanis Leader

Guy E. Farley, a charter member of the Campbell Kiwanis Club which was organized in 1926, was honored Tuesday for his 26 years of perfect attendance, 25 years as the club secretary and one year (1934) as the club president.

With a membership today of 57, there are besides Farley, four other charter members who are, Carl Field, Mark E. Purmort, Ralph H. Hyde and E. R. Kennedy. Field was program chairman Tuesday when a gold watch was presented Farley in recognition of his long services by Henry Jewell, president of the Club.

Program speaker was Alvin Long of the Long Advertising Agency in San Jose who was president of the club there when the Campbell Club was started and who presided at the charter night ceremonies here in 1926.

Also present were Mrs. Guy Farley and their son David, Miss Mae Farley, who is Guy's sister, Bay Hayes of Mountain View, Frank Parrish of Los Altos and Mrs. Roberta Field, wife of the program chairman.

Ethan Lanphear is to take over as club president next Tuesday.

Rev. Herbert Neale At Conference In Kansas City, Mo.

The Rev. Herbert W. Neale, Campbell, is among 200 delegates to the Methodist Church's thirty-third Conference on the Ministry to be held December 28-30 in Kansas City, Mo.

He is Chairman of the California-Nebraska Methodist Conference board of ministerial training.

The group will meet at National College for Christian Workers with President Lewis B. Carpenter as host.

Directing the conference will be the Rev. Dr. J. Richard Spann and the Rev. Gerald O. McCulloch, staff members of the Methodist Board of Education, Nashville, Tenn.

Dr. Spann is director of the Department of In-Service Training for the church board's ministerial education section, and Dr. McCulloch heads the Department of Theological Schools.

Delegates will comprise clergymen and registrars of regional ministerial training commissions in the Methodist Church's 104 annual conferences across the country.

The meeting is sponsored every two years by the education board, Dr. Spann said, "in order that the conference officials may review the church's ministry, including standards, recruitment and training."

Principal speakers will include Bishops Donald H. Tippet, San Francisco; Matthew W. Clair, St. Louis; Edwin E. Voigt, Aberdeen, S. D., and William C. Martin, Dallas, Tex., and President Harold C. Case of Boston University, Dean Merrimon Cuninggim of Southern Methodist University, Dallas; Dr. John O. Gross and the Rev. Richard G. Belcher of the Nashville board.

Bucs vs. Lincoln In Practice Tilt

Campbell High took on the Lincoln High basketball team last night in a practice game on the Lincoln courts, both teams fielding some of the tallest players in the SCVAL and the SPAL circuits. Campbell won the league title last year while Lincoln looms as a strong contender for the SPAL crown this year.

Coach Bert Robinson started Jon Harris, Keith Armen, Vernon Lunt, Rahn Sparrer and Tony Schraub, the latter two being 6-5 and 6-4 respectively with the other trio averaging 6-1. Lincolns giants included Jack Seafoss 6-5 and Jim Brazda 6-4 the starting team averaging 6-3.

While Campbell has lost practice games to Capuchino and to Madera the Bucs are considered slow starters.

SERVICE STATION PERMIT FOR YEE

A \$12,000 permit for a new service station at Pamilar avenue and the Los Gatos-San Jose road was issued yesterday for Dick Yee. A permit was also issued for an \$8000 home on Bucknell Road for Taft Realty and to Earl Clark for a \$10,000 home on Central avenue.

HANCIE NAYLOR IS VISITING ARIZONA

Hancie Naylor of Alice Street writes of warm, sunny weather for Christmas where she spent it at Globe, Arizona, saying she came over the Apache trail which was beautiful but rough by the Roosevelt dam.

NEW CAMDEN HIGH SCHOOL STAFF MEMBERS TO BE ANNOUNCED SOON

Some 330 freshmen students at the Campbell Union High school are to move in as sophomore students next year at the new Camden High School. School colors there are to be purple and gold and the athletic teams are to be referred to as the "Cougars". At present some thought is being given to a school song.

Dean Chamberlin, Camden high school principal says that some of the class are already deeply attached to Campbell high school, while others look forward to being in the first graduating class from Camden High School.

Chamberlin pointed out only about half of the \$2,500,000 layout will be ready by next fall. Derrigo & Powers, Stockton contractor, is laying foundations this week to erect a cafeteria, library, study hall, locker rooms, boys' gym, homemaking, administration and three classroom buildings.

The football field will be ready for Camden's Frosh-Soph eleven, but the swimming pool will not be constructed until money is available. Rest of the buildings will be built as students become juniors and seniors and require specific facilities.

Chamberlin estimated 700-750 students will tote books down Camden's spacious breezeways in September, with enrollment to skyrocket to about 1,800 within four years.

The school will draw from Burbank, Union, Almaden, Sunol, Cambrian and Campbell Elementary districts.

Campbell High School District officials, directed by Supt. Laurence Hill, made painstaking efforts to strike a logical, natural boundary between Camden and Campbell Highs. Starting at Stevens Creek road, it moves south down the San Jose-Los Gatos road to Apricot avenue in Campbell, and then winds down Los Gatos Creek.

Hill is expected to announce part of Chamberlin's new staff at a Freshman Reception on the 8th of January. It will include two boys' coaches and boys' and girls' deans.

Chamberlin said Camden-bound freshmen and their parents are

STATE COLLEGE HAS TO EXPAND PRESENT SETUP

A report to be submitted to the state legislature next month by a group of educators will recommend that California delay building any new state colleges until 1965, and that present facilities be expanded at ten colleges including San Jose State.

Roy Simpson, state school superintendent said that space is limited at San Jose and San Francisco.

Overcrowding has become so acute that Simpson has been directed by the State Board of Education to work out a student limitation plan for presentation at the board's Jan. 3 meeting.

The board recently gave the superintendent power to restrict admissions to "the number of students for whom facilities and competent instructors are available." Entrance requirements also were raised slightly.

Dr. Hubert H. Semans, a leading figure in the higher education study, stressed it was not yet completed and explained it was undertaken "to plan for the future in an intelligent manner."

The big task, he said, is to find out whether higher education in California is receiving the support it deserves.

As a further example of things to come, state statisticians predict University of California enrollments by 1960 will top the 45,000 mark.

EDITORIAL

THEY'RE FENCING US IN!

A long, narrow strip, carefully laid out so that it would not have enough population to call for an election, has been shot along Saratoga Avenue from Moorpark avenue to Quito road as a proposed new annexation by San Jose. If it goes through, then San Jose will have surrounded the City of Campbell on three sides.

It is titled Moreland No. 2, and casts a shadow over the Moreland school vicinity, which San Jose covets. It is a 210-foot strip, jumping to the west to avoid a populated subdivision, then takes in a 95-acre plot belonging to Mitchell Mitchell, then on to the Quito road "Y".

San Jose, in its smothering southerly roll, poked another finger of annexing land through Cambrian Park to the intersection of San Jose-Los Gatos road at Camden avenue.

BIG STORIES OF THE YEAR

In your opinion what were the big stories of 1954?

The trained newsmen of the United Press have picked the Senator McCarthy hassle with the army and later his condemnation by the Senate as the top national story. Second in line is the shooting of five Congressmen and the Geneva conference as third, followed in order by Democratic victories last month, segregation ruling, arms to West Germany, H-bomb tests, Ike's atoms-for-peace plan, Communist defeat in Guatemala, first four-minute mile and the Doctor Sheppard trial. Those were all important stories on the national level, but how many of them did you read in detail?

How about the grasping spread of San Jose annexations? How about the traffic survey, the enactment into law of the master zoning ordinance in Campbell, the closing of Hunt's Cannery, the record yield of 15,391 tons of prunes processed at the Campbell Cooperative Dryer? How about the 22 percent increase in school registrations, the zoning permits for two new shopping centers, the widening for six lanes of Hamilton avenue and four lane approach from Hamilton avenue to the proposed route 5 freeway? How about the city having annexed more than 160 acres of land to the west, the lowering of the city tax rate, the Campfire girls who for four years visited a boy who was hospitalized as the result of polio, winning of the SCVAL title in football and four championship titles in a year by high school teams?

What about these stories? Did you read them in detail? There was plenty going on in 1954 and there probably will be a lot more in 1955. Your local newspaper will carry the stories important to the community level—and to you.

1955—AND A NEW LEAF

The dawn of a new year is customarily looked upon as turning a new leaf, as a chance to start anew. From this attitude stems the custom of adopting the New Year's resolutions, usually involving making a break with old habits and customs and resolving to do better in the future.

It is a good custom and undoubtedly, among a few of the strong-willed, it produces results. For most of us, however, the attraction of habit is strong and after a few ineffectual attempts we lapse back into the old ruts and life moves along about as usual. But who knows? Perhaps we are better men and women for making the effort.

Since the human race is only the aggregation of living individuals, we may reasonably conclude that it is governed by the same habit patterns and by the same aspirations to do better.

We witness in such organizations as the United Nations what amounts to a permanent New Year's resolution by the world's nations, or at least a majority of them, to learn to live together in peace.

Of all the New Year's resolutions the human race could possibly make, this determination to find a way to peace would seem to top the list. With H-bombs, germ warfare, guided missiles and who knows what other horrors in the world's arsenals poised for action, war becomes unthinkable except as an utter last resort.

Let us keep renewing this resolution for peace even if the human race, like the individuals which compose it, fall by the wayside occasionally.

DEFENSE—THE NEW LOOK

Smaller active military forces backed by a larger and more efficient reserve system together with sounder mobilization plans in terms of production, stockpiling, and the organization and training of men—these are the ingredients of the latest thinking in Washington on national defense.

This thinking, incidentally, is designed for the long pull, a matter of 50 years if necessary. Federal officials believe that defense must be planned on such a basis, for it seems apparent that, unless a marked change occurs behind the iron curtain, the need for strong armaments will continue indefinitely.

The basic need is to concentrate on more effective continental defense to crush or blunt atomic attacks and to create a greater retaliatory power. Plans for the construction of a new chain of radar warning posts across northern Canada and the building of launching stations for the latest type of rocket interceptors are part of this program.

Although ground troops and much of the conventional type of military equipment will continue to be needed, the development of new and longer-range

The Campbell Gambol

THIS IS THE TIME of the year I for one feel that train travel is safest, so for the holidays I rode the Shasta Limited to Dunsmuir where relatives met me and whisked me away to their home at Yreka where a big roast turkey and all that goes with it was ready . . . up the Sacramento river canyon there were flakes of snow falling but except for the higher levels there was no pack . . . but the nights were cold and clear, the days warm.

A lot of relatives keep repeating some of the experiences of years ago, and tell about some who have gone on, but a talkative five year old boy taken for a walk will give out more information of what has impressed him in the last year . . . the strawberries were gooder than the blackberries until the grasshoppers came along, and a bull snake got in with the chickens but didn't do them any hurt and he found it later under the house and got him killed, the watermelons looked pretty good but they didn't get ripe because the frost got inside the melon and wouldn't let it get red, the pheasants in the pen won't get scared if you walk up to them slowly and don't move your arms quicker than anything, Jimmie's Mom don't like the pop-up toaster because the baby picked up a .22 bullet and put it inside so when they put in some toast the next

morning and set it for popping up it went BANG and his Mom went after Jimmie like anything and Jimmie didn't do it but he got a licking anyway . . . being in Fish and Game work for the State, the head of the family up there took me over on one of his jaunts to see how beavers were building an upper and lower dam, setting up housekeeping, and if man came along to change their work they would set about to do it all over again . . . how blackberry vines are being set about on sand banks to fight soil erosion, baby pheasants moved in for a few days before being planted about, how geese will fly over a low ridge and come close to a man-made duck-call, coveys of quail will make regular calls if you sprinkle about some alfalfa seed.

BIRD DOG STORY Up there is about a fellow who had a dog to sell at great sacrifice as he had special training, the buyer objecting to the high price until he went out with the dog that rounded up a covey of quail then began pointing as one bird flew up and was shot, then another and another until the limit was reached, then the rest came out together, so the hunter went over and found that the dog had run the quail down a gopher hole, had put his paw over it, then released one bird at a time until the limit was reached.

SPEAKING OF INDUSTRY

PATTERSON PACIFIC PARCHMENT COMPANY will erect a \$500,000 parchment manufacturing and distributing plant on a ten acre site at Kifer and Lawrence Roads in Sunnyvale with bids to be called for construction about January 1, 1955. The 80,000 square foot plant will employ approximately 110 persons, reported Mr. W. J. Gray, General Manager. The company is one of the nation's largest manufacturers of food wrapping parchment and the parent company is located at Bristol, Pennsylvania. The firm also has a San Francisco plant which employs approximately 600 people.

KAISER-WILLYS CORP., a division of Willys Motors is having a 12,000 square foot laboratory erected on a 3 1/4 acre site on Stanford Campus which will represent a capital investment of \$250,000, including equipment. Mr. Clay Bedford, Vice President of the firm, said they expect to occupy the building early next spring for research into television, radar, and electronic computers. Number of employees at the new installation has not been revealed.

PREFORMED LINE PRODUCTS COMPANY of Cleveland, Ohio, has leased 5 1/4 acres on Stanford University's industrial park for construction of a 23,000 square foot plant which will represent an investment of about \$350,000. Thomas F. Peterson, president of the company, said work is to start immediately on the new plant. Firm manufactures power line equipment.

ATLAS FURNACE COMPANY of Belmont, California, has purchased a 1 1/2 acre site on Commercial Street between Argus & California Streets in Sunnyvale where they plan to have a distribution and sales service branch. Capital investment is reported at \$30,000. Contract for the building has not been let. Manager Mr. Dan O'Brien of 1350 Old County Road, Belmont.

MOFFETT FIELD has awarded contract to remodel its commissary at reported cost of \$22,949. Contractor is Penn Construction Company of Redwood City, it is reported.

ALMADEN DEVELOPMENT COMPANY, Almaden Road, San Jose, will build a new clubhouse at reported cost of \$18,000 for new golf course scheduled to open in

WORDS, WORDS!

We bow low before Kid, the canine lady, who on command can pick out the man wearing a red tie with a bit of blue in it. We bow also before Kid's itinerant master and the patience it must have taken to teach her meanings for some 2,000 words.

To the possessor of that eager but uncomprehending puppy, Kid must seem like a dream come true. "Down!" The pup's eyes dance; but so do his feet. "Come here!" So willing to please; but he bounces off toward a new whiff in the air. "Quiet!" The doggie's eyes spall bewildered adoration; the doggie throat barks more and louder.

But let that pup live a few years. And let his master (or mistress) be one of those fortunate humans who has learned to cherish the friendship of a dog. What's 2,000 words? Man-made symbols wholly unnecessary to communication between beloved dog and beloved master.

The walk in the woods. The quick nuzzling of the hand, the upward look of Pythian eyes, the striding on in silence. There's at least three thousand words there, with twice their meaning. The pause on the hill in the starry night. The push of furry head against thigh and the leaning of a furry shoulder under a caressing hand. A whole chapter here, and never a syllable formed. And the intensity of that message those pleading eyes convey when master leaves without dog!

"Words, words, words," cried Hamlet. The Bard of Avon must have had a dog.

—Christian Science Monitor

GRAND MASTER TO VISIT I.O.O.F.

Charles H. Henderson, grand master of I. O. O. F., jurisdiction of California, will visit Morning Light Lodge No. 42 of Campbell on January 6th. Lodge will start promptly at 8:00 p. m. with Hugh Nelson, noble grand, presiding over an initiation to be held in honor of the Grand Master. All lodges in this area are invited to present candidates for the initiation and all sojourning Oddfellows from other jurisdictions are invited to attend.

early 1955. C. B. Goodrich is chairman of the building committee. Contractor is E. A. Hathaway, San Jose.

weapons with greater striking power changes the emphasis considerably.

Any reduction in military manpower will not be made without thorough study. The important thing, obviously, is not how many men are in uniform but how effective their training has been and how efficient their weapons.

LEGISLATORS TO HAVE BUSY TIME AT SACRAMENTO

SACRAMENTO, Dec. 29:—Santa Clara county's three representatives in the state legislature, Senator John F. Thompson, Assemblyman Clark Bradley and Assemblyman Bruce Allen, were preparing to leave this week end for Sacramento and the opening of the 1955 legislative session next Monday (January 3).

Senator Thompson will begin his thirteenth year in the legislature, has been a member of six standing committees and was vice chairman of the Institutions committee.

Assemblyman Bradley will begin his second term in the lower house, has been a member of four standing and interim committees and was vice chairman of the Military Affairs committee.

Assemblyman Bruce Allen will begin his second term in the lower house and has been a member of four standing and interim committees.

The legislators face what Capitol observers say will be one of the most controversial sessions in many years. The question of cutting costs of state government or adding new taxes will be before the legislature this session. One fac-

S. F. Supports Southwest Plea

The San Francisco Public Utilities Commission this week was on record supporting the Southwest Airlines in its plea before the Civil Aeronautics Board to retain its feeder line service.

In the current hearing before CAB, Southwest is fighting to retain service linking San Francisco with Medford, Ore., Los Angeles and intermediate California cities, including Eureka, Monterey, Oxnard, Red Bluff, San Jose and Santa Barbara. United Air Lines is seeking a similar route.

San Francisco's brief outlined the city's growing economic dependence on airline service to the cities concerned and pointed up the increasing importance of feeder service to major trunk airlines.

tion claims the large state deficit may be met by cutting the proposed billion dollar budget to meet the income, while another faction prescribes a new tax on cigarettes, liquor and horse-race betting.

Unemployment insurance, labor legislation, highway construction, additional hospital and prison facilities, and other vital subjects point to the introduction of a record number of bills in the opening days of the session. Nearly 6,000 measures were introduced at the regular session two years ago.

WHAT IT TAKES to supply your home with WATER every day

By: Charles B. Parbury
Vice President and General Manager

One of the most impressive sights to visitors from less-advanced foreign countries is our vast and complicated public service systems which they can see in action, right before their eyes. There are the rows of power and telephone poles, looping miles of wire and cable; speedy buses carrying passengers; thousands of trucks and commercial vehicles transporting goods and materials.

But there are no such dramatic, visible evidences of the service facilities of the water works system, so vital to the community. That's because so much of the system

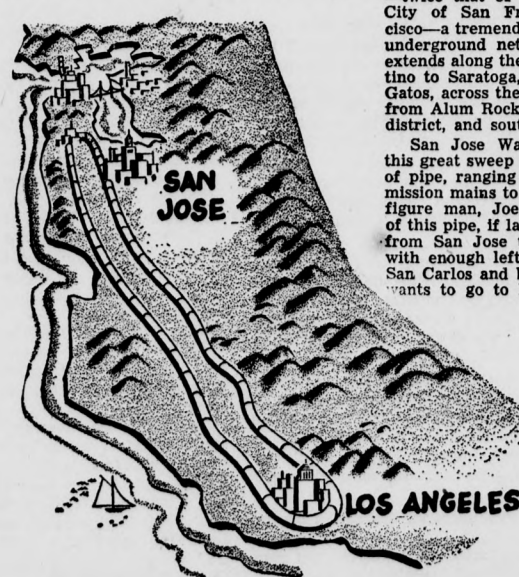

is composed of transmission and service mains, buried underground. Down there under the street, water is on the move every minute of the day, delivered to our customers through pipes under adequate average pressure.

Over a vast area of 100 square miles—twice that of the City of San Francisco—a tremendous underground network of pipes and mains extends along the western hills from Cupertino to Saratoga, to the hills south of Los Gatos, across the valley to the eastern hills from Alum Rock Crest to the Mt. Pleasant district, and south to Almaden.

San Jose Water Works system covers this great sweep of territory with 781 miles of pipe, ranging from giant 42-inch transmission mains to 3/4-inch service pipes. Our figure man, Joe Slide-Rule, says that all of this pipe, if laid end-to-end, would reach from San Jose to Los Angeles and back, with enough left over to run up almost to San Carlos and back to San Jose. But who wants to go to Los Angeles?

Charles B. Parbury

Campbell Register

Mr. and Mrs. GLEN ROBINSON of Apricot Way entertained on Christmas Day Mr. and Mrs. Larry Critchlow and son Steven, also Mr. Robinson's mother, Mrs. Mae Robinson of Bellingham, Washington. The Critchlows are planning to attend the Rose Bowl game and tournament of roses parade Saturday at Pasadena, where they are to be guests of Mr. and Mrs. William Blankenship of Monrovia, nephew and niece of Mrs. Critchlow.

Councilman GORDON DAUM and family of April Way entertained on Christmas Day, Mr. Daum's brother and family, Mr. and Mrs. W. A. Daum and daughter Arlene of San Jose, at which time a surprise announcement was made of the engagement of Arlene to Mr. Lorin Heath of Los Gatos. Plans for the wedding are to be announced later.

The HARRY KAHRMANNs of El Caminito Avenue had a family gathering for Christmas day with Mr. and Mrs. R. T. Cropley Sr. and Mr. and Mrs. R. T. Cropley, Jr. of Milpitas, mother, father and brother of Mrs. Kahrman, present and with baby Kathaleen enjoying her first Christmas party.

Judge and Mrs. MARTIN WALSH of Budd avenue on Christmas entertained their daughter and family of Los Gatos, Mr. and Mrs. William Craddock, Billy and Diane.

Mr. and Mrs. D. R. VAN ROSEN of 49 Casey Road have as house guests for the Christmas holidays Mrs. Von Rossen's parents Mr. and Mrs. R. Hughes of Yreka; Mr. Van Rossen's brother Peter with daughter Anne of Pasadena; and his mother, Mrs. Grace Coolidge of Palm Springs, who arrived the day after Christmas and will spend New Year's Day with them.

Mr. and Mrs. VERLE GRIZZLE of 49 Poplar Avenue has as their house guest Verle's mother, Mrs. Harold Bullard, and her husband from Oakland. Christmas Eve was spent at the home of Mrs. Grizzle's parents, Mr. and Mrs. William O. Fuller in San Jose. Christmas Day the whole family gathered for a dinner at the home of Mrs. Grizzle's brother and his family, Mr. and Mrs. William L. Fuller, also of San Jose.

Mrs. JAMES PIERSON of St. Joseph, Missouri, is spending a week with her niece and family, Mr. and Mrs. Ren Orsi of Winchester Road after an eight years lapse of time. Mrs. Pierson is renewing her acquaintance with one of the Orsi daughters, Jackie, who is now ten years old, and met another little daughter she had not seen before, five year old Teri.

Mrs. CLARA BALDWIN and her sister Mrs. LOUELLA WHITNEY have had a very busy time over the Christmas holidays. Together they have been entertaining Mrs. Baldwin's daughter and family, Mr. and Mrs. Willard Brown and son John of Willets; two sons and their families, Mr. and Mrs. Al Baldwin; and Mr. and Mrs. Chester Baldwin.

A happy family reunion was held Sunday at the home of Mr. and Mrs. ARTHUR HART of 63 N. First Street. Gathered at the family table were Mrs. Hart's two sons, grandsons and three great grandchildren. They were Elton Clark wife Marjorie with son Kenneth and little daughter Carol of Santa Barbara; grandsons Robert Clark and wife Jeanne with son Keith and daughter Debra of San Mateo; Edward Clark and wife Dolly with son Neal of Napa; granddaughter Joyce Clark Adams and husband Raymond with four month old Mark S. Adams of Deighton, Kansas.

JOY DEACH of 461 El Patio Drive was feted on her eighteenth birthday, December 22, with a surprise slumber party given her by a number of her close girl friends, assisted by her mother, Mrs. Harry Deach. The girls spent most of the night eating and even induced Mrs. Deach into cooking spaghetti for them at midnight. The party was complete with gifts, birthday cake and all the trimmings. Attending the party were Carol Young, Mary Thompson, Marie Banco, Beverly Shamrock, Sharon Story, Evelyn Rozema, Jean Clewett and Linda Curtis.

Special Price for Children

Mrs. ELSIE RAPPE of Portland, Oregon, arrived several days before Christmas to spend the holidays with her son and his family, Mr. and Mrs. Boyd Rappe and children Yvonne, Pat and Bonnie of Rosemary Lane.

Mrs. Hilda Duckett of 798 White Oakes Road, is back home after a one month trip to Hull, England, where she attended the funeral of her mother, Mrs. Duckett came to the United States as a war bride after the Second World War, so while in England visited with relatives and friends in London and Kendal. She says although nothing is rationed in England now the wages are so very poor the average women cannot afford the labor saving devices American women use such as washing machines, instead most of them are still washing on the old fashioned board. In the town she stayed there is one Television station and nothing much on it. Mrs. Duckett said the weather was cold and rainy so she was very glad to get back to the States, and added that "home is where the heart is".

Mr. and Mrs. R. W. KENNEDY of 419 S. Union Avenue hosted twenty-seven members of their family with a Christmas dinner. Attending the family gathering were Mr. and Mrs. Oscar Spillman and family, Mr. and Mrs. Roy Archibald and daughter Virginia Gratten, Mr. and Mrs. Winfield Archibald, Mrs. Lloyd Bersinger, Mr. and Mrs. Lloyd Flowers of Ohio, Mr. Spillman's parents, Mr. and Mrs. Robert Snyder of Oakland; Mr. and Mrs. John Staley of Los Angeles, and Mrs. Minnie Culp.

Mr. and Mrs. HARRY DEACH and daughter Joy of 461 El Patio Drive, spent Christmas Day at the Port Costa home of Mrs. Deach's sister and family, Mr. and Mrs. Walter Parker. Also there for the holiday dinner were the Parker's daughters and their families, Mr. and Mrs. Jack Mobley and Mr. and Mrs. Robert Finch of Berkeley.

Mr. and Mrs. ROBERT DUNN of 151 Cherry Lane and neighbors enjoyed an informal gathering at the various neighborhood homes on Christmas Eve to start the Holiday season. These little gatherings have become almost a tradition on Cherry Lane because it gives the friends an opportunity to become better acquainted with each other. Afterwards the Dunns attended a party at the home of the Ray Burnetts on Thornton Way. Christmas day they had as dinner guests, their friends, Mr. and Mrs. Vern Grafft and children Jeff, Jan and Jay, of Hayward.

Little MARY ELIZABETH, three and one half month old daughter of Mr. and Mrs. DON McFARLAND of 235 Cloverdale Lane has been titled "the crown princess of the street" by neighbors because she is the first baby to be born in this newly established sub-division.

Mr. and Mrs. RALPH SCHAEFFLE of 291 W. Campbell avenue had a happy holiday with the home coming of their three sons, Wallace Schaeffle who is an air force cadet at Malden Air Base in Mis-

Society... Personals... Clubs... Organizations...

Troop 70 Sends CARE Packages

Boy Scout Troop held a Christmas Party last Tuesday at the Moreland School which included an exchange of gifts and the singing of carols led by Dorothy Palmer. Floyd Dearborn, Assistant Scoutmaster and Clarence Barr, committee chairman were in charge of arrangements. Roy Kosich was presented with a wrist watch in appreciation for his work as adult supervisor at Camp High Sierra during the summer.

Del Caron Makes Luggage Award

The Del Caron Dress Shop announces the winners picked in a drawing December 18, are: First place, Carmelita Doust of 2441 Boxwood Drive, San Jose, who won the week-end case from the luggage set; and Mrs. E. Grant of 691 W. Campbell Avenue, who won the Over-night case.

S. F. SEEKS FUNDS FOR SMALL BOAT HARBOR

SAN FRANCISCO—The San Francisco Chamber of Commerce has approved in principle a plan for enlargement of the city's small boat harbor facilities in the vicinity of Gas House Cove, adjacent to the Army Transport docks.

Present facilities for small boats are inadequate at San Francisco. Berths for 900 are required but only 250 can be accommodated at this time. In addition, facilities are required for sport fishing boats, the industry having become one of considerable value in the past few years.

Willis Schaeffle who for a year and a half has been classed as a civilian engineering instrumentationist at Edwards Air Force base, and Roger who is a student at San Jose State. Also present on Christmas day was Mrs. Martha Wood, mother of Mrs. Schaeffle. Wallace is going back to Malden, Missouri, while Willis is going to the jet propulsion laboratories at Cal-Tech in Pasadena.

Gilbert Johnson, son of Mr. and Mrs. FRED JOHNSON of 279 W. Rincon Avenue is at the San Diego Marine Base where he will serve two years with the United States Marines.

Gilbert is a graduate of Campbell High School, attended San Jose Junior College, and is a Past Master Councilor of Campbell Chapter, Order of DeMolay.

Horizon Club Fetes Polio Victim

Several months ago we ran an article about Dick Miller, the young polio victim who had been "adopted" by the Luta Horizon Club girls of Campbell. On the Monday before Christmas the girls drove to Mountain View to give Dick a party at the home of his sister with whom he is now living. There was a swift exchange, carols, jokes and a great deal of laughter.

This was a doubly joyous occasion for the girls because they saw Dick for the first time able to breathe by himself. Although he was in his rocking bed, it was not moving nor was it necessary to use his portable "iron lung". He has improved to the extent where he is now able to breathe three and one half hours without any artificial help and to go for automobile rides two or three times a week.

Dick was originally allowed to leave the hospital because he had learned to help himself by doing a certain type of mouth breathing for short periods. His mouth breathing is so successful that he is taken to the County hospital each week to give lessons to others. Although he is still completely paralyzed, Dick believes his legs are improving with the constant therapy he is receiving and hopes that some day he will be able to move them again.

Horizon Club girls who attended the party were Pat and Yvonne Rappe, Gay Williamson, Susan Burrows, Joan Farley, Florence Edwards and Bev Stuckey. Transportation was furnished by Mrs. Nettie Rappe and Mrs. Naomi Farley. Bonnie Rappe, 8, and Margaret Farley, 10, also attended the party.

Church To Hold Communion

The Congregational Church will hold communion next Sunday, January 2. There will also be Baptism of children and a reception of new members at both services. Reverend Corwin Olds will officiate.

DeMOLAY TO HOLD DANCE

The annual New Year's Eve Dance of the Campbell Chapter Order of DeMolay will be held Friday, December 31, from 9:00 p. m. to 1:00 a. m. in the Moreland School cafeteria located at Payne Avenue and Saratoga Road in Campbell. Dressy dress is required. Bids may be obtained from Bud Feasel, master councilor, FR 8-3958, or Arthur Sutton, chairman, FR 8-2393.

Postal Workers Honor Wilkinson With Party

West Valley Postal Workers held their first social evening party December 11th at the Campbell Country Womens Club with well over one hundred employees, their wives and husbands attending. Post Offices from Cambrian Park, Campbell, Cupertino, Los Gatos, Permanente and Saratoga were represented.

Guests of honor were Mr. and Mrs. Bill Wilkinson who were presented with a piece of luggage on behalf of the Postal employees. Bill has been Star route carrier for a number of years and acquired many friends in the four Post Offices he serves. Dan Yeager was given a tie and tie clasp in honor of his birthday. December 11 was the day which gave him the privilege of retiring from the Postal Service after thirty-eight and one half years of service.

After a potluck dinner arranged by Henrietta Marcotte of Cupertino, entertainment was provided by Percy Smock, a magician from San Carlos, and Elsie Dudley accompanied by Mrs. John Daniel at the piano. John Dudley, superintendent of mails of Los Gatos, gave a resume of President Eisenhower's request for safe driving on December 15th. Speaking on behalf of their local Post Offices were Ralph Wanzer, assistant postmaster of Los Gatos; George Whalen, acting postmaster of Saratoga; Mrs. E. Gasich, postmaster of Cupertino; and Dan Yeager, senior employee of Campbell post office.

The committee in charge of arrangements were Al Carter and Henrietta Marcotte of Cupertino, Dick Adams and John Dudley of Los Gatos, Karl Nerell and Ileen Vogel of Saratoga, Dan Yeager and Ray McVea of Campbell.

METHODISTS NAME DISTRICT LEADER

Dr. Elliot Fisher former Willow Glen minister has been named district superintendent of the Methodist churches to succeed Dr. John Wilkins who has been advanced to executive secretary of the California-Nevada Conference Board of Mission.

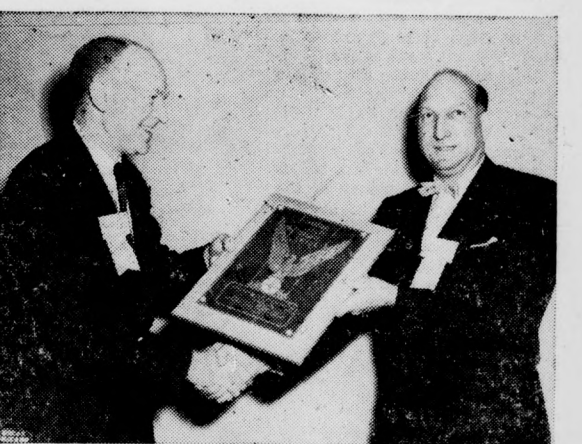

EDUCATION NOT THE ONLY PRODUCT FROM SARATOGA SCHOOLS

Bids have been called for the harvesting of crops on the Saratoga School district's Fruitvale avenue and the Shumer avenue properties. At the Fruitvale property, there are walnuts and apricots while at the Shumer avenue site, prunes are to be harvested. Terms of the lease which is for three years are available at Superintendent Dan Ungaro's office at the Oak street school.

Refrigerator Hangs on Wall

Here's how refrigerators may look in the future, says American Builder magazine. Occupying only two-thirds the space of a conventional model of the same capacity, the wall-mounted refrigerator-freezer saves the housewife valuable floor space, which she can use for other kitchen equipment. Eye-level storage space is divided into an 8 cu. ft. fresh-food section and a 2 cu. ft. freezer section. The appliance is an experimental model.

L. R. Flicker, (right) senior safety engineer for Kaiser Aluminum & Chemical Corporation, receives a national first-place award on behalf of the company in the Private Carrier Division of the National Safety Council's fleet contest. The award, won by the Nativity Fleet, was presented in special ceremonies in Chicago. The presentation was made by M. A. Kraft, American Transit Association.

Service Club Gives Party At Agnew

Members of the Campbell Women's Service Club participated in the fourth annual Christmas party at Agnew State Hospital held Wednesday, December 21st. The guests played Bingo and sang Christmas carols accompanied by Mrs. Richard Gordon on the cello. After the games and music, refreshments were served and Christmas gifts distributed. Party arrangements were made by Mrs. Rudy Golden and Mrs. L. E. Means.

Mrs. Milton Robertson was hostess for the December meeting of the Service Club in which plans were made for the Agnew party and the annual rummage sale to be held in February. She was assisted by Mrs. E. R. Kennedy and Mrs. W. B. Enoch. A program of Christmas music and a reading was presented by Mrs. Dean Chamberlin, Mrs. Earl Buck and Mrs. Greg Parker.

Mrs. L. W. Harmon Claimed By Death

Mrs. Sylvie B. Harmon passed away Christmas Day, December 25, in her home at 81 Victor Avenue.

A native of California, age 58, and a resident of Campbell for seven years, she was a member and past worthy matron of the Order of the Eastern Star of Sebastopol. She is survived by her husband, L. W. Harmon; her children, Mrs. Erby Tate of Nevada; Mrs. H. Charles Ward of Mill Valley; A. W. Harmon of Pacific Grove, and James S. Harmon of Texas; her brothers and sisters, Erma Duer of Watsonville; Mrs. Rowena Kimball of Sebastopol; Zeno Strout of Ft. Bragg; Marvin Strout of Pomona; Archie Strout of Berkeley; Wilmer Strout of Fulton; Ernest Strout of La Jolla; Mrs. Gladys Van Fleet of Redlands; Mrs. Mariam Yost of Indio; Air Force Chaplain Delbert Bruce and John Bruce of Pasadena.

Funeral services were held at 10:00 a. m. Tuesday in the Camp-

Award Top 4-H Ratings in California

VALUABLE awards were presented to 4-H club members in California for exceptional achievements in the 1954 Entomology, Field Crops, and Meat Animal programs. The winners and resumes of their records are:

Fay Fisher

Barbara Rubottom

William Eade

The State award for all-around accomplishment in the 4-H Meat Animal program in 1954 went to Barbara Rubottom, 19, of La Habra.

Learning the best methods of feeding and management, Barbara, a 4-H'er for seven years, works under the supervision of her father and leader, Robert E. Rubottom. She enrolled in the Meat Animal project five years ago, and has grown in the knowledge and understanding of its value.

By attendance at fairs and shows she now has a better understanding of type, grade and quality desired by the consumer. When Barbara sells steers she asks for yield and dress-out percentage, along with advice as to methods of improvement of carcass and quality of meat.

Reports on her last seven steers show they graded prime, yielding from 64 to 68 per cent. With her profits she has been able to buy three registered heifers and one bull. Her meat animals include 21 head of cattle.

She has given demonstrations and talks while participating in Junior Leader activities and formed a 4-H Livestock judging team.

In recognition of her accomplishments, Thomas E. Wilson presented her with a 17-jewel pocket watch award.

The California 4-H Club office has selected Fay Fisher, 18, of Hollister, as having the best all-around 4-H Entomology program in the State during 1954.

In recognition of this honor, she was awarded a 19-jewel

All these programs are conducted under the direction of the Cooperative Extension Service.

Kenneth Hinman

Annie Gutierrez

Melvin Khachigian

Minnie Lindsay

Outstanding work in the 4-H Community Relations program by Kenneth Hinman, 18, of Eureka, and Annie Gutierrez, 16, of Westmoreland, has brought them statewide recognition. They have been presented with certificates of honor by Gene Autry and the Wm. Wrigley Jr. Co.

In his six years of club work, Kenneth has done exceptional work in his vegetable and home beautification projects. His demonstration team won top state honors on "Tuberous Begonias." In cooperation with his local nurseryman, Kenneth appeared on a TV home beautification program this year. Kenneth conquered a speech defect and in 1953 won the All-Star award for his speech at the All-Star dinner. He also gave a talk in church on National 4-H Sunday.

Miss Gutierrez, who has been a club member for six years, received recognition for her Safety program. In demonstrations before community and 4-H groups, she stressed safety on farm and home equipment covering everything from "Tractor Maintenance" to "Safety in the Kitchen."

She appeared on TV during National Safety Week. A veteran public speaker, Annie has had her own radio program for over a year, as part of her efforts to publicize 4-H activities more widely. She is a junior leader and has led many community welfare projects.

Two 4-H club members in California have been named boy and girl state winners in the 1954

watch, provided by the Hercules Powder Co. New vistas and experiences have been opened to Kay through the study of insect life and community projects relating to insect control.

She began the project four years ago and has become a recognized authority in the field with a collection of over 600 insects. She has helped in the planning of entomology field days, and has assisted in a county-wide insect survey.

Under the leadership of Mr. and Mrs. Allen Smith, Kay has earned membership in the 4-H All Stars.

By efficiently producing crops on the 1,334-acre home of his parents, William Eade, 17, of King City, was named State winner in the 4-H Field Crops program. A \$50 U. S. Savings Bond provided by International Harvester Co. is his reward.

William was able to achieve that recognition through careful attention to every phase of crop production, such as keeping farm machinery in condition, selection and treatment of seed, and scientific soil management.

William began his Field Crops project four years ago. He has planted wheat and barley. While working on the Field Crops project, he learned practical farming methods, and how and when to plant in order to insure best results. This year he was chosen San Benito County's boy All Star.

A 4-H'er for seven years, he is an assistant leader in Tractor. His leader is Claire Schmidt.

All these programs are conducted under the direction of the Cooperative Extension Service.

Kenneth Hinman

Annie Gutierrez

Melvin Khachigian

Minnie Lindsay

Leadership program, for outstanding guidance of club and community projects. They are Melvin Khachigian, 20, of Visalia, and Minnie Lou Lindsay, 17, of San Jose.

In his eight years in 4-H activities, Melvin has completed projects in garden, vineyard, and home electric, vineyard pruning and frozen foods, and junior leader.

This is his sixth year as leader of his local club. He won the county award for leadership in 1952. He is an active participant in the Tulare County 4-H Leaders' Council. He was the state manager for six county dress revues, and received the Chevalier Degree. This year he is president of Valley De Molay, member and president-elect of Western Speech Association, and member of California Student Teachers' Association.

A 4-H'er for seven years, Miss Lindsay has held four offices in her local 4-H Club, was a junior leader for three years, and is currently serving as president. She also is president of the Santa Clara County Youth Grange as well as her local Youth Grange. This year she won the county and regional demonstration award in Food Preparation and placed third in the state.

She also won three firsts in Home Furnishings, 10 firsts in Food Preparation and three sweepstakes at the county fair. As a member of a demonstration team, she won third place this year in state competition on pie crust. Her local leader is Mr. G. Rohrbacher.

Both programs are conducted under the direction of the Cooperative Extension Service.

NATL. SHRINE BOARD TO MEET IN S. F.

For the first time since the Shrine Hospital movement was launched in 1921, the National Board of Trustees of the Shriners' Hospital for Crippled Children will convene in San Francisco.

Helen's Shop Awards \$25 Order

Helen DeRose, owner and operator of Helen's Juvenile Shop, has announced the winner in the drawing for the \$25 merchandise order is Jo Magnuson of 139A Latimer Avenue. She was the holder of the lucky ticket No. 020385.

YOUR "LUCKY" GUEST COLUMNIST FROM THE SIDELINES

By CLIFF HARRISON
Sports Columnist
Seattle Post-Intelligencer

(EDITOR'S NOTE: The newspaper career of Cliff Harrison has spanned nearly a half a century, starting in 1907 on the Portland Oregon Journal. In 1917 he went to the Seattle Times as sports editor for six years before moving to the old Seattle Star in the same capacity. In 1940 he became editor and held that post until 1947 when he was named outdoor editor of the Seattle Post-Intelligencer.)

Would you believe that William Clark and Merriweather Lewis, making their famous trek across these United States "way back in 1804-5, had trouble finding enough fresh meat, especially when they hit the Pacific Northwest?

It is true. You can read it in their historical account of their journey across the Rockies and Cascades and down the mighty Columbia.

Yet here we are a century and a half later with millions of people residing where the two brave trailblazers found only bands of Indians, and we are harvesting more than a quarter of a million deer annually, 267,000 in 1953 to be exact.

The answer? Logged off land which gives a greater chance for more deer to survive and careful game management.

No longer do thousands of deer die annually from starvation in these parts.

A game management man shudders when he even thinks of such a thing happening in his domain.

His job is to see that range and herd are kept on an even keel, enough range to support the maximum number of animals. These animals increase by 25% at least each year and that is the harvest for the man and woman who love to hunt deer.

It is simple mathematics to show you that in these three Pacific Coast states a herd of a million deer roam. There has to be to maintain a harvest of 267,000 each season which is exactly

The money that could go into more and better playgrounds for our children now is spent cleaning up unsightly rubbish along our highways. "In addition to costing every state thousands of dollars annually," says Lucky Lager Brewing Company president Eugene Selvaag, "rubbish prevents proper roadside drainage and provides breeding places for mosquitoes and flies." Help KEEP AMERICA BEAUTIFUL.

what the Pacific Coast hills and valleys are providing for the hunters each year.

Take a look at the figures—California with better than 300,000 deer hunters harvests around 90,000 annually; Oregon with 196,000 hunters took 105,000, its top figure last year, and Washington with 250,000 hunters harvested 72,000 deer in 1953, close to that in '54.

Equally amazing from a management angle is the terrific fishing that is being furnished the angler on the Pacific Coast. And that in the face of a growing number of new citizens flowing into the farthest west of these United States.

Two million fishing licenses are sold each year in these three states.

Twenty years ago about a tenth of that number were interested. Lakes rehabilitated, the scrap fish cleaned out, rainbow or cutthroat supplanting them, provide catches that are all but astronomical.

In the first hour of opening day on one Washington lake, Mineral in Lewis county, more fish, all trout, were taken from that lake than in 10 years previously.

The two Pacific Northwest states, Oregon and Washington have, literally, thousands of lakes.

And that story of Mineral lake is being re-done in several hundred each year.

Still another phenomena, is the tremendous surge in steelheading.

The coastal streams of all three states from San Francisco north to the British Columbia border, are now filled with those famous winter beauties.

The figure isn't accurate but not less than 400,000 steelhead are taken each year. And where a handful once fished for that fighting fish a good 300,000 have cutlits, buy licenses annually. And their numbers grow each year.

What a surprise Messrs. Lewis and Clark would get if they could return again to the land they virtually discovered and again seek game and fish for their larders.

The proposed time conference will mean two game seasons to hip.

DRIVE SAFELY AND BE ALIVE IN '55

The above slogan was taken from a statement made by Lt. Tobin of the California Highway Patrol in San Jose and has become a by-word for all traffic enforcement officers. Safe Driving is an easy habit to obtain if the drivers of automobiles will do three things:

1. DRIVE AN AUTOMOBILE THAT IS MECHANICALLY SAFE.
2. DRIVE WITH COURTESY.
3. FOLLOW THE AGE-OLD GOLDEN RULE—"Do unto others as you would have them do unto you."

LAW IN ACTION

SUPERIOR COURTS

Our superior courts have the most varied work of any of our courts. They have authority to try every type of case, except those few which the Legislature has set aside for a justice or municipal court.

In counties where there are no municipal courts, the superior courts hear suits that involve more than \$500.

In counties with a municipal court, the superior court will not hear actions unless the sum sought exceeds \$3,000.

Most actions which ask for something other than money belong to the superior courts. Examples: divorce suits, a suit to make a correction in a written contract, or to end the contract, or to make a person perform as he promised, or for an injunction.

Superior courts try people accused of felonies. Felonies are crimes for which the court may send a person to state prison. Sometimes the punishment is in the county jail. But until the judge imposes a jail sentence, such crimes are regarded as felonies and so are tried in a superior court.

We find "courts" not on our list.

Take "Juvenile Court." The juvenile court is but a superior court which works under the juvenile court act.

The children's courts of conciliation are superior courts at work on certain family problems. So, too, our probate courts are our superior courts when they deal with the wills and estates of deceased persons.

Our superior courts may also issue and hold hearings under special writs of habeas corpus, mandate, prohibition, and review. These writs provide ways to get the court to do or not to do some special thing.

When you ask for a writ of habeas corpus, you are asking the court to release a person whom you believe to be unlawfully held in custody. You would seek writs of mandate, prohibition, and review to have the court compel governmental officers or state agencies to do something they have unlawfully refused to do or to keep them from doing something they may not legally do.

NOTE: The State Bar of California offers this column for your information so that you may know more about how to act under our laws.

COAST SHIPPING AID IS SOUGHT

SAN FRANCISCO.—Federal aid for intercoastal shipping has been asked by the Northern California Ports and Terminals Bureau here.

The Bureau, which represents the seven ports and private terminals in the San Francisco Bay Area, made specific recommendations in a letter sent Secretary of Commerce Sinclair Weeks, who is also chairman of the President's Committee on Transport Policy and Organization.

In its letter the Bureau said water and rail carriers have failed to keep up with the national growth of transport which doubled between 1939 and 1952.

The Bureau recommended alteration of the exemption of farm commodities from regulatory rate control when carried by motor carriers, which, it said, is detrimental to railroads and steamship lines, and repeal of the three percent excise tax on transport charges.

To encourage waterborne trade, the Bureau urged Panama Canal tolls be changed. It also asked increased Congressional appropriations for the Bureau of Water Carriers in the Interstate Commerce Commission, which has lacked the funds and staff it needs, the Bureau said, to help the shipping industry maintain efficient service.

issuance of such license (s) may file a verified protest with the State Board of Equalization at Sacramento, California, stating grounds for denial as provided by law. The premises are now licensed for the sale of alcoholic beverages.

TIME TO RENEW AUTO LICENSES

The mailman today began notifying California automobile owners it is time to renew registration of their cars.

From Sacramento, the Department of Motor Vehicles on December 27 mailed more than 5,000,000 potential registration cards, containing statements of the fees motorists will pay for their 1955 license plate tabs.

Statements to owners of 1,062,000 commercial vehicles—trucks, trailers, buses and taxicabs—had been mailed earlier, and processing of certificates for these already has begun.

The regular registration period for all vehicles will be between January 3 and February 4.

Director Paul Mason announced that clerical and cashier personnel of the state-wide branch offices of the Department of Motor Vehicles has been expanded further to speed up the 1955 transactions.

A major change has been adopted in the form of the 1955 potential, or statement of fees due. Instead of a white slip, as in the past, the new potential is a pre-punched card, perforated to form a file record, with an attached stub to be displayed as the motorist's record in the vehicle.

Mason had this warning for motorists:

"Do not detach the stub before submitting it with your fees for validation. The stub has been left blank, but the left-hand portion of the card bears the owner's name and address. Every owner is required to fill in the stub to correspond with the name on the left-hand portion before applying for the 1955 renewal. Typing or legible printing is acceptable.

"Do not in any way mar the card, for to do so will spoil it for processing by the machine. It must not be stapled, pinned, folded, torn or otherwise mutilated."

S. F. HARD HIT BY TAX LOSSES

San Francisco loses more than \$2,000,000 in taxes each year because of State and Federal ownership of property here, the California Senate Committee on Lands reported this week.

Twelve per cent of San Francisco is owned either by the State or Federal Government and represents \$2,370,682 in tax exemption. The State owns 996.23 acres and the Federal Government 3639 acres, the Committee reported. Exclusive of improvements the property is assessed at \$44,144,426.

Following the earthquake and fire of 1906, the Carnegie Foundation gave San Francisco \$750,000 to assist in reestablishments of the city's public library system.

LETTERS TO THE EDITOR

Opinions expressed in this department do not necessarily reflect the editorial policy of this newspaper.

15 December 1954
Orleans, France

Editor, Campbell Press,
The middle of November I visited the little country of Luxembourg which is surrounded by Germany, France and Belgium. It is 999 square miles, and the population around 291,000.

How one would start to describe this little country, it is hard to say. Everything is so different from France, the people, the food, cheapness of traveling and on and on.

One thing I noticed right away was the friendly way the people felt toward Americans, including the servicemen. More than once they went out of their way to help me catch a bus, and only twice did I find anyone who could not help me, and that was because they could not speak English. Because of the many lives lost in Luxembourg by our soldiers in WW II, I believe that is why they feel that way. Over 5,000 American soldiers are buried in the famous Cemetery about three or four miles outside of the beautiful city of Luxembourg, (Capital of Luxembourg).

The cemetery is one of the most beautiful I have seen. The white asphalt crosses are lined up in every angle the onlooker might choose, and of the Jewish faith, the Star of David markers are visible among the crosses. Against the green grass this indeed makes a very easily not forgotten memory in your mind. Caretakers are steadily keeping it in top shape, replanting grass keeping the grounds beautiful. General Patton's grave is there, and always there are fresh flowers by his grave, as well as some of the other graves. Some of the people of Luxembourg place flowers on the graves, boys they knew, and more or less adopted while they were occupying and fighting for the country.

The food was simply great. For 60 or 70 francs one could get as much to eat as he desires. There are 50 francs to the American dollar. Venison and Veal Outlets were my favorite, and also I didn't have to pay for using the silverware and napkins like I did in Paris on occasions. The coffee is STRONG! So I switched to tea, and that was STRONGER!! They had coke so I drank that.

For entertainment, we had no worries. They had as much as San Jose perhaps, or as much as a town of 200,000 would have. I think the population of Luxembourg city was something like 10,000. We went to one of the big theaters there and saw a completely English (speaking) movie. The subtitles were in French and German. The cost to get in was 10 francs. (20c) The language they speak in this little country is a mixture of German and French. The movie, by the way, was just as modern as the states have, the wide screen and all.

Most of my time was spent in Luxembourg city, but once I heard of a Castle in a little town of Mersch I wanted to get a picture of so got on the train and got there in about an hour. I got my picture and went to catch the train back, but it was hours before the next one so I went into a little Cafe and decided to get something to eat. I walked in and immediately a little old lady (the owner) was so glad to see me. You would think I was a long lost cousin when I told her I was a US Army soldier on leave. At once she began to tell me about all the GI's who used to come to her little place

DENTAL HEALTH CLINIC TO MEET

Forty leaders in Dental Health Education from Santa Clara, San Mateo, Santa Cruz, Monterey and San Benito Counties met Thursday at the Santa Clara County Health Department to plan the Regional Children's Dental Health Conference to be held on February 7, 1955 in San Jose.

"The improvement of educational approaches to children's dental health problems is one of the coming conference's prime objectives," stated Dr. R. Thomas Dunkin, general chairman of the conference and member of the California State Dental Association's Committee on Dental Health Education.

Dr. Dunkin further commented that the conference, as planned, will provide a unique opportunity for discussion and joint planning among the health and educational professions and parents for a unified attack on the dental problems plaguing our children. All persons interested in dental health are cordially invited to attend the conference.

Tax Declaration Time Extended

Persons who have filed declarations of estimated taxes on income earned in 1954 are cautioned by the District Director of Internal Revenue, San Francisco, that the last day on which declarations may be amended is January fifteenth. However, this date is automatically extended to January seventeenth, 1955, because January fifteenth falls on Saturday.

It is not necessary that an amendment be made or the final installment paid on a declaration of estimated taxes on January seventeenth if a final income tax return for the year 1954 is filed on or before January seventeenth. Farmers have until January seventeenth to file their declaration of estimated tax and pay the tax due thereon but need not do either if they file their final income tax return and pay the tax due on or before January thirty-first, 1955. However, a farmer may, as in the case of other taxpayers, file an estimate and pay the tax due by January 17, 1955, making full settlement when he files his final return on or before April 15, 1955. A farmer is one who receives at least two-thirds of his gross income from farming.

Lady-bird beetles kill and eat various soft-bodied insects.

during the war. That is where she learned to speak her little English. She had some kind of cousin in the states since 1870 or something like that, and she showed me some gold pieces \$10 and \$20 dollar ones some older than 100 year old. Confederate money, and all sorts of odd things I had NEVER seen. She began to show me pictures, so I took out my wallet and showed her mine. All the time she kept telling me how much she liked the American soldier. Her son was killed in the battle of Luxembourg also. I had to go catch my train, but if ever I go back to the little country of Luxembourg I certainly shall go back to the small town of Mersch to this little Cafe where I felt so welcome. The meal I ate at this little Cafe? She wouldn't let me pay for it. . . . but when she cleaned off the table after I left I'll bet you she found a 100 franc bill anyhow, under the tablecloth.

Don't ever pass up this little country if you are anywhere near it. Your time and money will well be rewarded I am sure.

Very sincerely yours,
CPL. IKE STEVENS,
Engineer Detachment 7962 AU
APO 58, New York, N. Y.

We thank you sincerely for the business of the past year.

OUR DEMOCRACY—by Mat

RISKS OF THE ROAD—

IN THE EARLY DAYS OF OUR COUNTRY, THE CHIEF DANGERS OF THE ROAD WERE HOSTILE INDIANS AND HOLD-UP MEN.

TODAY, THE CHIEF DANGER IS THE PERSON WHO DRIVES CARELESSLY—SPEEDING, WEAVING, FOLLOWING OTHER CARS TOO CLOSELY, CUTTING IN, DROWSING AT THE WHEEL.

AS MOTORISTS, WE CAN HELP REDUCE HIGHWAY ACCIDENTS BY OBEYING THE TRAFFIC LAWS, LIGHTS AND SIGNS.

SAFE DRIVING DAY—DECEMBER 15

Los Gatos Plans Northerly Spread

Tentative plans for the development of the north Los Gatos area are to be announced next month at a meeting of the town council and the planning commission, at which time a report on the study by Karl Belser, county planning director, will be heard.

In a preliminary report to the commission Tuesday, Belser said that the existing zoning pattern in the north Los Gatos area is "extremely good" but would require adjustments in several critical spots. He pointed out that commercial zoning was concentrated in shopping centers with no striping of highways. He said, however, that there were a number of non-conforming commercial uses.

The planning study takes in the area now under consideration for annexation to Los Gatos and extends along the proposed Junipero Serra freeway route to a point about mid-way between Los Gatos and Saratoga. This makes a "very rational planning area", Belser declared.

"If the city develops according to the present zoning this area can contain about 40,000 population", Belser pointed out.

"This would be an optimum city. It wouldn't be so large that it would have a top-heavy bureaucracy. The citizens would get the most service for the money spent."

Belser showed the commission ten maps which have been prepared in connection with the study. They showed all phases of the community growth and development. The maps included existing land uses, zoning, topography, percolation contours, thorough-

WALL STREET JOURNAL IN EXPANSION

SAN FRANCISCO—The Wall Street Journal this week announced expansion plans to better serve its West Coast and Far East subscribers. The publication has purchased a 40,000 square foot building at 1540 Market Street which will be extensively remodeled. A large press will be installed.

GARDENS

High above the Cliff House at San Francisco are the famed Sutro Gardens, formerly the home of Adolph Sutro, one time mayor of the city.

TULSA MINISTER GUEST—

Rev. T. L. Osborn of Tulsa, Oklahoma, an evangelist, is to conduct services for seven days starting Sunday at the Santa Clara County Fairgrounds under auspices of Four Square Churches.

fares, sewer lines, various districts, and the development during the past 10 years.

Belser said it was necessary for the county and town of Los Gatos to work together to solve problems in the Los Gatos fringe area.

Truck Owners Weight Fees

The Department of Motor Ve-
hicles today reminded owners of
commercial vehicles subject to
weight fees who wish to register
their vehicles for 1955 on the
quarterly basis permitted by law
for this class only, that they will
lose the option if they do not reg-
ister by the close of business on
Wednesday, January 5, 1955.

Department officials explain
that the application for quarterly
registration is delinquent unless
it is submitted within the first five
days of operation in any year. For
owners of vehicles in regular oper-
ation, this means that quarterly
registration must be filed within
the first five days of each quarter.
Otherwise, the entire year's regis-
tration and weight fees must be
paid.

NEWSWEEK LOOKS AT S. F. BAY AREA

The San Francisco Bay Area, as
it is today, its potentialities and a
forecast for future greatness, is
related in the Dec. 13 issue of the
national magazine, Newsweek.

"When you talk about the Bay
Area," reports the magazine, "you
talk about 3 million people in 72
incorporated cities—and area 157
miles long and 81 miles wide."

Citing the millions of dollars
pouring into the Bay Area's varied
industry, the magazine points to
four industries—metals, food pro-
cessing, oil and chemicals—as
outstanding evidence that the
mood of business in the area is
"conservative rather than unduly
pushing of hucksterish."

Record Total Of New Homes Seen in 1955

An all-time high in housing
starts in 1955 is predicted by the
building industry publication that
in recent years has been forecast-
ing annual figures with on-the-
nose accuracy.

American Builder magazine ex-
pects that more than 1,400,000
dwelling units will be started in
the United States in 1955. This
would be slightly above the pre-
vious record of 1,396,000 starts in
1950.

The magazine's prediction is
based on results of a survey of
3,000 builders, a carefully selected
sample of American Builder's
more than 100,000 subscribers.
Good design of houses, excellence
of equipment, and ease of financ-
ing were the chief reasons given
for the expected increase in con-
struction.

American Builder gained its
reputation for accurate forecast-
ing in 1949 when a survey, similar
in nature to the one just com-
pleted, showed that a 25 percent
increase in starts could be ex-
pected in 1950. Despite wide-
spread pessimism in other quar-
ters, American Builder published
the prediction—and it turned out
to be correct.

Most forecasts for 1954 were for
a decrease in residential construc-
tion. American Builder's survey,
however, showed that an increase
of 11 percent could be expected.
This increase began to develop in
June, when the number of hous-
ing starts went up substantially.

Y.M.C.A. To Fete Its Centennial

Mrs. Chester Root of Los Gatos,
has been named as Santa Clara
valley centennial chairman for the
observance next January of the
100th birthday of the world-wide
Y. M. C. A.

At the same time, the fiftieth
birthday of the San Jose Y. W. C.
A. will also be observed.
The joint birthdays will be cele-
brated by members and friends of
the organization at the annual
meeting on Monday evening, Jan.
10 at Schofield Hall in San Jose.

Campbell women who are active-
ly involved in the YWCA program
include Mrs. Ella Griset, Mrs. Carol
Ivy, Mrs. Leo Sarter and Mrs. Al-
bert Sloan.

One of Mrs. Root's children,
John, 14, is a student at Campbell
Union High School, and Mrs. Root
is a member of the Campbell PTA
at the school.

To keep pace with expanding
needs and to strengthen the ser-
vices of the organization, YWCA's
throughout the nation are joining
in a \$5,000,000 fund drive during
the 1955 centennial year.

Quota for the San Jose associa-
tion is \$10,000.

Other objectives of the centen-
nial celebration are to increase
membership in the San Jose
YWCA, highlight its fifty years of
service and activities, and to re-
dedicate the YWCA membership to
"Fortifying freedom with faith
and fellowship," the motto for the
centennial celebration.

STANFORD DORMITORY for

Hearing Set On School District Bill At Capitol

Assemblyman Donald D. Doyle,
Vice Chairman of the Assembly
Education Committee and Chair-
man of a Subcommittee studying
the effect or annexation of terri-
tory to cities upon school district
boundaries, Assembly Bill No. 1,
of the 1953 Session, has announced
that a second and last hearing on
this subject was held yesterday in
Sacramento.

Other members on this sub-
committee include Ernest Geddes,
Don Hobbie, and Joseph Shell.
Those desirous of presenting
testimony at this hearing are re-
quested to contact Miss Blanche
Hansen, Committee Secretary,
Room 3114 State Capitol, so that
sufficient time may be made
available.

A large collection of early Cali-
fornia mementos is housed in
Pioneer Hall of the California His-
torical Society in San Francisco.

Wishing that
you may find
many causes
for rejoicing
in each day
of the bright

ADVENTISTS SET RECORD IN GIVING

Members of the Campbell Sev-
enth-day Adventist Church set a
new record in giving to their
church during 1954, according to
Elder H. Hare, pastor of the
Church. Total contributions made
by members of the local church
amounted to \$34,097.05, an in-
crease of \$569.88 over last year.
Mission offerings totaled \$4,035.63
and tithes came to \$20,835.74. The
tithe represents ten per cent of
the total income received by mem-
bers of the church and is a "must"
giving practice which all Seventh-
day Adventists follow.

Seventh-day Adventists through-
out the nation have the highest per
capita giving record among Pro-
testants again this year, according
to an announcement made recently
by the National Council of Church-
es. Adventists contributed an av-
erage of \$173.00 each.

All tithe and mission offerings
are regularly turned over to the
headquarters office of the denom-
ination and are not kept by the
local church. The mission offerings
go to support the world-wide medi-
cal, educational and religious work
of the Adventist church in all
parts of the world. All ministers of
the denomination are one the same
pay scale according to years of
service, with the pastor of the
smallest church receiving the
same pay rate as the pastor of the
largest church.

In 1953 Seventh-day Adventists
in North America contributed
\$47,782,877 for work of the church.
The 724,822 baptized adult mem-
bers of the denomination through-
out the year gave \$60,412,195.

Aliens Must Report Addresses In January

The Post Office is posting this
notice issued by the Immigration
and Naturalization Service of the
United States Department of Jus-
tice.

During January of 1955 every
alien must report his address. Re-
quirements are as follows:

Every alien who is within the
United States on the first day of
January of each year shall, within
30 days following such date, report
his address to the commissioner of
Immigration and Naturalization
Service, and shall furnish such
additional information as may be
required by regulations. Any alien
who is temporarily absent from
the United States during the re-
porting period shall report his ad-
dress within ten (10) days after
his return to the United States.

Penalties.
Any alien who willfully or inex-
cusably fails to report as required
is liable to be taken into custody
and deported. In addition, impris-
onment or fines may be levied be-
fore deportation.

How to report.
Go to any United State Post
Office or Immigration and Natu-
ralization office. Ask for alien
address report card form (1-53).
Complete all items. Hand the card
to the clerk in the Post Office or
Immigration office.

SAWMILL GUIDE IS ISSUED

A handy pocket guide for small
sawmill operators was reported
here this week.

The booklet contains the com-
bined results of years of sawmill
research by the U. S. Forest Pro-
ducts Laboratories with practi-
cal-in-the-field experience. The docu-
ment, published as Department of
Agriculture Handbook No. 70,
"Small Sawmills: A Pocket
Guide", is obtainable from the
usual government printing source-
es.

ALLEN BILL HAS CITY SUPPORT AT STATE HEARING

Support of the Allen Bill and a contention that city and school matters be independent entities, were contained in a letter from Robley Morgan, city attorney at Santa Clara to the State Assembly Education interim committee yesterday at Sacramento.

Another supporter of the law, Superintendent Lawrence Curtis of Jefferson Union School District located between Santa Clara and Sunnyvale, was scheduled to make a trip to Sacramento today to back the law.

Morgan's letter explained that Santa Clara has annexed 50 areas as sections adjacent to the Mission City built up and requested city services.

His letter remarked that Santa Clara as a freeholders charter city is well aware of the rule that school district boundaries and school matters are not municipal affairs.

He contended that one Santa Clara County city was making a practice of annexing tax rich industrial land and properties into its city limits and city school district. He said that the unnamed city and others in the state were leaving the new residential areas built near the factories outside their city and city school district. Laurance W. Hill, superintendent of the Campbell Union High School, was in Sacramento yesterday to speak in behalf of the Allen Bill (AB-1) before the State Assembly committee on Education. The hearing would decide whether the bill be extended or killed.

PTA To Hear About Narcotics

Mrs. Dwight E. Salisbury, director of narcotics of the foundation for California, will be guest speaker at the next meeting of the

MRS. DWIGHT SALISBURY

Campbell Grammar School P. T. A. at 7:30 p. m. on Tuesday, January 11th. During her lecture, Mrs. Salisbury will show films on the evils of narcotics, "The Assassination of Youth" and "The Terrible Truth". A question and answer period will follow.

Included in the program will be an outline of the health program in Campbell Schools by Dr. Lydia Verbarge, Campbell School doctor. Children in the sixth grade, and over may attend with their parents. Child care will be provided for younger children.

HEART ASSOCIATION APPOINTMENT MADE

Lester Lafferty, publisher of the Campbell Press has been re-appointed a committee member of the Santa Clara County Heart Association by Alvin B. Williams, M. D., president of the Association.

Business sessions will be held in the Fairmont Hotel beginning Dec. 30 and continuing through Jan. 2. The entire group will attend the Shrine East-West football game at Kezar Stadium on New Year's Day.

One of Colombia's oldest industries is the manufacture of soap.

Lyman Feathers Taken By Death

Lyman Feathers, former Chief of Police of Los Gatos, died Tuesday evening at his home of a heart attack after having complained earlier in the afternoon of feeling under the weather. A doctor was called and he was placed in an oxygen tent but died at 8:00 p. m. He had suffered an attack over a year ago and had apparently not fully recovered.

Feathers was, until his death, the purchasing agent for the Los Gatos Union High School. Prior to that he had owned the Star Taxi Company in Los Gatos and had been on the Police Force of Los Gatos from 1929 to 1943. During this time he had served as Chief of Police for five years. He is also well remembered as having been one of the candidates for judge in this area in the last election. Feathers was a member of the Masonic Lodge of Los Gatos; a 32 Degree Mason, Scottish Rite; a member and past president of the Rotary Club; a member of the State Peace Officers Association; and a member of the advisory board of the Order of DeMolay.

He is survived by his widow, Hazel; four sisters, Rowena Gibson of La Mesa, Clara Feathers of El Monte, Dorothy Robinson of Oakland; Louise Rodgers of Los Gatos; and three brothers, L. McDonald Feathers of Los Gatos, Clifford P. Feathers of Menlo Park, Robert A. Feathers of Tempe. He was the son of the late Alfred M. and Sally Louise Feathers of Los Gatos and sister of the late Mary Feal.

Funeral services will be held at 2:00 p. m. Friday, December 31, at the Place Funeral Home in Los Gatos. The services will be conducted by the Masonic Lodge. Interment will be in Oak Hill Cemetery.

Good Business Outlook In 1955

California's business outlook for the year 1955 will show slightly higher levels of employment and individual incomes than the nation as a whole, Carl F. Wente, San Francisco, president of the

California State Chamber of Commerce said today.

In reviewing business activity for the past year, Wente said, "A majority of economists and businessmen appear to agree that the national trend of business activity will be moderately upward during 1955, and that industrial production, construction, and consumer retail purchases will average somewhat larger than during 1954."

"Based on the facts as we see them now, California is expected to continue to show slightly higher levels of employment and individual incomes than the nation as a whole, although these trends may not always be apparent in comparative percentage changes from the same period a year ago. Since the 1954 business dip was smaller, the upswing also may be smaller," Wente said.

During 1954, non-farm employment in California averaged 3,895,000 or about 1 percent less than during 1953. Nationally, the mild recession which prevailed during a large part of 1954, brought a 3 percent decrease in non-farm employment. The major difference in trends between California and the nation as a whole was in the manufacturing segment of the economy. Nationally, factory employment dropped 7.2 percent, due mainly to rather drastic inventory curtailment in the durable goods industries. In California, factory employment during 1954 was only 2.3 percent below 1953. Most of the manufacturing industries in this State showed declines in employment ranging from 1.4 in petroleum refining to 11.3 percent in the primary metal industries, but the continued expansion of employment in the aircraft and parts, instrument, electronics, guided missile, and other defense contract industries sustained total factory employment at relatively high levels.

The former president of the Bank of America said, "The outlook for 1955 in this important segment of the State's economy is for stability rather than for further expansion."

Easy, Boy! Mink Price Going Up

SACRAMENTO—Mink, always guaranteed to raise the feminine heartbeat, is likely to bring cheer in other quarters as well this year.

Prices for top-quality mink pelts may bring trappers half again as much as they got last year, George Seymour, fur management supervisor for the Department of Fish and Game, reports. Last year's high was about \$20.

Indications in major fur-buying centers are that other short-hair furs—muskrat, river otter, and beaver—may bring up to a third more than last year. In contrast to the sluggish market of past years, buyers are now saying they will take all the top furs of these four species they can get, Seymour states.

Prices for long-haired furs—raccoon, skunk, ooyote, bob-cat—continue at rockbottom, with demand slow.

CHRISTIAN SCIENCE

The fact that no disability or discord is beyond the healing power of God will be stressed at Christian Science services this Sunday.

Scriptural selections in the Lesson-Sermon entitled "God" will include the account, as given in the seventh chapter of Luke's Gospel, of Christ Jesus' healing of the centurion's servant who was "sick, and ready to die."

The following will be among the correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "When man is governed by God, the ever-present Mind who understands all things, man knows that with God all things are possible" (180:25-27).

The Golden Text is from Deuteronomy (6:4): "Hear, O Israel: The Lord our God is one Lord."
